Nowadays, Microsoft Office apps like Excel, Powerpoint, etc. have many great features and you need to learn the ins and outs of it for better understanding. It will surely take weeks of classes to go through each and every feature of the Microsoft Office Apps. If you do not want to go through all of that, then you should go only for the MS Office Alternatives for your Windows. Are you looking for the best 3 MS Office alternatives for Windows? If yes is your answer, then here are the best MS office alternatives for you right now itself.

FreeOffice

FreeOffice is one of the best and famous MS Office alternatives for Windows. The document and toolbar creations are similar to those in the MS Office apps. Also, the latest software has updated everything which ensures the program is fast and takes less time in loading. It is really the best choice for handling all the professional assignments. It offers password-protected files and compatibility to the users. It can also help you in creating ePUB files or PDF files. There are several other common features that include smart typing and spellcheck ensuring you are not going to miss even a single feature Office-related.

WPS Office

WPS Office comes with Presentation, Writer and Spreadsheet for the users. The files you created in WPS office will be compatible with their Microsoft counterparts. It is available for free on your iOS and Android devices. You do not have to pay anything for using it. If you are used to a specific interface in Word programs and want to feel the experience as much as possible, then WPS Office will meet your overall requirements. Do you have not enough time to learn new tools? If yes, then you should not worry about it. All the template options are based on Microsoft's traditional templates which will be really easy for you to start and fill out a document. The user interface is very simple and easy to understand. You would not face any issues or doubts while using it even for the first time.

DropBox Paper

DropBox Paper is the best replacement of Microsoft Office apps and many users prefer it due to its great features. You can easily create and edit your documents, collaborate with colleagues and friends. Also, you can enjoy several team communication and project management features without any issues. It does not include spreadsheets and presentation apps of its own but you can add compatible files created using Microsoft Office files or Google Docs apps stored on your Windows or Google Drive. It has a clean and smooth interface for the users.

At last, you need to try the above-mentioned MS office alternatives for your system and surely you are going to prefer it for sure. These MS Office alternatives will help you in creating and saving your files easily just like you do in MS Word and MS Excel.
