In brief

While you might update your phone's software on a regular basis when was the last time you updated your home? Easy tech updates can save you both time and money in the long run, or just improve your quality of life.

While you might update your phone's software on a regular basis when was the last time you updated your home? Easy tech updates can save you both time and money in the long run, or just improve your quality of life. From temperature control mugs to a smart TV antenna, we've created a list of the best tech updates in 2021.

Check out our favorite new gadgets below and Geek Out Over these Cool Home Devices.

Smartenna

Tired of overpaying your current TV provider and bored with the selection on Netflix? Consider updating your home with Channel Master's SMARTenna. With seven virtual antennas built into one, the SMARTenna guarantees the best signal and number of channels for just under a hundred dollars. This device works in both difficult locations and has rave reviews from over 100 happy customers. Cut the cable today and invest in the Smartenna. It's worth it.

Dyson Hot + Cool Link

The Dyson Pure hot + cool link does it all-it cools, heats, and purifies the air. This Dyson link works for all times of the year, saving precious closet space. In addition to lowering your electric bill, the Dyson link also purifies over 99.97% of pollutants and allergens as small as 0.3 microns. Say goodbye to allergy season with this nifty device!

Phillips Sunrise Alarm Clock

If you're sick of feeling grumpy in the mornings, consider this Phillips alarm clock that gradually brightens to wake you up. Inspired by nature's sunrise, this smart alarm clock helps your body wake up naturally by gradually increasing the light. By the time the clock has fully brightened and the sounds of nature have gone off, you'll be happy and refreshed.

Ember Temperature Control Mug

For those who can't bring themselves to finish the last sip of lukewarm coffee, consider the Ember temperature control mug. Besides its ultra-sleek design, this cup keeps your beverage at your perfect drinking temperature for as long as you want. With its 1-hour battery life or all-day heating ability (when left on a charging coaster), drink to your heart's content with the Ember mug. Your coffee cup will continue to stay hot for longer than five minutes, making it worth every penny.

Nest Thermostat

Nest's thermostats are truly revolutionary. An intuitive thermostat system, the Nest thermostat saves money and energy with its remote temperature sensing and add-on home security system. Compatible with the vast majority of air conditioning systems, the thermostat automatically changes for your preferences. For instance, if you get cold easily during the night, the thermostat can automatically heat up without the push of a button. Just set it up once, and never worry about it again.

Stay Tech-Savvy with these Home Updates

Don't hesitate! Check out these cool gadgets today. If you have any additional recommendations for home tech updates, we'd love to hear about it! Let us know in the comments what tech updates changed your home for the better.
