What happened

Google experienced a widespread outage affecting Gmail, YouTube, Analytics, Play Store, and other services, with users encountering permission and internal server errors. The disruption impacted several regions including India, but all services were restored and are now functioning normally.

All the services from Google are down now. Other than Google.com all the services from the company are down now including Gmail, YouTube, Analytics, PlayStore, etc.

Users are getting errors while accessing the service. Some services showing permission error whereas some others firing an internal server error. However, all the services are currently down for more than 5 minutes.

It is reported that the issue is happening to some regions only and in India, it got affected with almost all the services.

Update 18:10 IST: All the services are getting restored. Now Gmail, Youtube, PlayStore, and other services are working normally.
