In brief

There are several media owners, photographers, and famous bloggers who always put their company name or brand logo in videos or photos for copyright purposes. The main reason behind this is protecting their content from getting copied or stolen by others.

There are several media owners, photographers, and famous bloggers who always put their company name or brand logo in videos or photos for copyright purposes. The main reason behind this is protecting their content from getting copied or stolen by others. Watermarks can be used in several forms such as logo or text or image or video.

Fortunately, there are various paid and free watermark remover tools available for the users to remove the watermark from videos and pictures easily without any issues at all. If you are looking for the best background eraser app for your overall needs, then you should use Apowersoft Background Eraser.

Apowersoft Background Eraser is one of the most famous and trustworthy background eraser apps available in the market for the users. It helps in removing background from images with only a few clicks. You just have to upload your image, and you would get the photo background transparent. It helps in changing photo background with the built-in templates, colors or your own image. You should note that it also has basic editing features that allow you to move, copy, flip and adjust the cutout size. You are going to have full control of your image background without any problem for sure.

It has a pretty decent and simple user interface for the users. You are not going to face any issues while removing a watermark from the videos and images. As a user of this great app, you are going to delete texts, logos, time stamps, texts and any unwanted items from your files. Let's go through some of its helpful key features for the users.

- It supports all types of video formats which include MP4, AVI, WMV, MOV, etc.
- You can select any watermark area on your image or video by using a drag and drop option.
- It is possible to delete logos, irrelevant signatures while keeping the same output format and quality.
- You can select any area with watermarks and delete all kinds of objects in batch.

Users can download this background eraser software for free. You can use the three free trials with only limited functionality. To use more advanced features of this software, you will have to buy its plans. Its plans depend on the number of images you are going to use and based on that you can go for it. There is also a money-back guarantee so that you can get your money back if you are not happy with it.

Conclusion

I have personally used this great background eraser software and it really works great and saves my lot of precious time. This software offers a simple way to easily change your image background without any hassle. It would be better for you to understand that it has a built-in library of background which provides well-designed templates and solid colors for free. You can use your custom image as well as the background for sure. Also, you would be able to create your stunning banners, posters, greeting cards, and photographs. Get it now!
