In brief

It is essential to remember the birthday dates of your lovable ones to make them feel special and happy. If you do not wish your family members on their birthdays, you will feel bad for sure.

It is essential to remember the birthday dates of your lovable ones to make them feel special and happy. If you do not wish your family members on their birthdays, you will feel bad for sure. But, you should not worry about it anymore as there are several birthday reminders apps for Android and iOS. It isn't easy to choose the three best 3 Birthday Reminder app for your Android devices with so many apps available. So, are you looking for the best birthday reminder apps for your Android and iOS device right now? If yes is your answer, then let's go through some of the best birthday reminder apps for your smartphone right now.

Birthdays for Android

Birthdays for Android is one of the most famous and widely used birthday reminder app for your Android phone. If you open it for the first time, you will see a list of birthdays that the app will pull from your calendar apps and contacts. The best thing about the app is that it will show the person's profile pic, age, and date of birth. By knowing all the details, it will be easy for you to write on that cake. It would be better for you to understand that you can easily add new birthdays manually to the list or edit existing ones if you want to change anything. This app is free to use, and you do not have to pay anything to use it.

HIP

The HIP is also one of the most famous birthday reminder apps for iPhone users worldwide. It will easily sync birthdays from your contacts on your iPhone but also Facebook and calendars. This app will remind you in advance about the upcoming birthday of your family members and friends. It can also recommend your gift ideas, and users living outside of the US can easily send e-greeting cards without any hassle. You need to understand that there are different options for reminders like a gift, text, call, etc. This app is free to use, and you can download it without paying even a single penny.

Google Calendar

Google Calendar is a very famous calendar app that can be used as a birthday reminder app for sure. This app is available for Android users and it is completely free to use. You should understand that it integrates with Google Assistant so that it will be easy for you to set up reminders manually or to use voice assistance. You can create an event, set it to repeat, and select your time and date. It is also straightforward to collaborate with family members and friends. You can send an invite to their Gmail ID. You can also use it for any occasions or events, whether professional or personal, without any issues.

So, what are you waiting for? Download it and share your valuable experiences here.
