In brief

The best three cloud PC backup services are Zoolz Cloud PC Backup, Backblaze, and Acronis True Image. Zoolz stands out as the top recommendation thanks to its full-featured interface, private encryption, multiuser accounts, and affordable pricing.

have a safe back up of your computer data to an external hard drive or any storage devices you have. By saving all important files in the hard drive, you would be on a safer side for sure. If you are looking for more back up options, then a cloud PC backup service would be helpful for you.

With the help of these online PC backup services, you can avoid weird situations of data disasters easily without any issues. They help in storing all important information to an offsite repository so that you can access it from anywhere at any time. Are you looking for the best three cloud PC Backup Service for your computer? If yes, then let's go through the top Cloud PC backup services right now.

Zoolz Cloud PC Backup

Zoolz is one of the famous and reliable online PC backup services providers available in the market today. There are millions of computer's user prefer using only Zoolz due to its excellent and unique features. It has a lot of features and easy to use and an attractive interface.

The service lets you back up system files and applications and also allows multiuser accounts. It has a permanent free version and easy sharing options for the users. You would get complete control over which files you want to back up, and you can secure your data by using private encryption too.

Backblaze

Backblaze is also one of the popular and cheapest cloud PC backup solutions available for users worldwide. The setup process is straightforward, and you would not face any issues at all. If you are looking for an affordable online-backup solution, then BackBlaze is perfect for you.

It has unlimited storage, and inexpensive, generous drive-shipping policy, and an excellent user interface. You should note that it has no support for network-attached storage drives and also not perfect for multiple machines to back up. It is a secure and simplified online backup service. It is better for novices, but it may frustrate some users who are looking for more control over backups for sure.

Acronics True Image

It is a versatile and powerful online-backup solution available, with syncing and sharing options, mobile-device and social media backups, and also ransomware protection. You can also use a "survival kit" for creating a bootable file restoration tool quickly without any hassle.

It would be better for you to understand that it is a bit expensive and also does not back up network or external drives. But, the desktop interface is excellent and full disk image backup and restores option.

Conclusion

Finally, you are aware of the best 3 Cloud PC Backup services for keeping your important data safe and secure. I would personally recommend everyone to use Zoolz online PC backup service without any second thought. You wouldn't get an improved online backup service than the full-featured Zoolz, especially for the low price. After all, the choice is yours by considering your overall requirements.
