In brief

Gallery is a fast, lightweight, and completely ad-free Android app for managing and viewing your photos and videos offline without requiring cloud integration or network data.

We really love taking selfies on our phones and also want to save all those photos safely in our Android devices. For doing this, there are several genuine gallery apps available with great features for Android users. With so many options available, it is not an easy task to choose a reliable one for your overall requirements. You should note it is really important that the Gallery app on your Android device is genuine and reliable to manage the thousands of photos you are going to take. If you are looking for a fast, simple, and light gallery app for your Android devices, then you should download the Gallery app right now.

The Gallery app is one of the most famous and widely used gallery apps available for Android phones. This app is very simple and easy to use for users. The user-interface is very neat and you are not going to face any issues at all. The app is totally free to use and also completely ad-free.

You would be amazed by knowing that you do not require network data for using it and also there is no cloud integration required in the app. It is an offline gallery app which gives a great and smooth user experience without any hassle. You are going to get various advanced features like scene and face recognition just like Google Photos and many more.

As a user of this app, you can list all your memorable moments by time, including videos and images and can easily share those videos and images to other apps like Facebook, Google maps, WhatsApp and many more. It also provides great protection to your photos and videos with Pin code. By giving a unique pin code, your privacy will be maintained.

There is also an Album management feature that lets you manage your albums, you can modify, add and delete your albums. You can print your favorite pictures and set them on your home screen. If you want to edit any video or photo of yours, then it can be done by using this app.

Users can turn their Android phone into a slide show viewer which shows all the pictures within a gallery automatically. There is an option to change the sequence, interval timing and how the image is going to be displayed in the galleries settings. This app covers very easy and simple to understand features which make it a perfect one for sure.

Conclusion

The Gallery app is really a perfect choice for those folks who do not like to see ads while using the app. I would recommend everyone to use this app and enjoy its simple features. This app is completely ad-free and you do not have to waste your precious time watching those irrelevant ads anymore. It is completely free to use and you do not have to pay anything for using it. You must download this app right now by going through this link

Go for it right now and share your experiences with us here!
