In brief

As most gamers know, GeForce Now is one of the most popular online game streaming platforms where users can play high-end games even with low-end PCs or laptops.

As most gamers know, GeForce Now is one of the most popular online game streaming platforms where users can play high-end games even with low-end PCs or laptops.

One of the great things about the cloud gaming platform like GeForce Now is that you can play games not only on PC but on mobile, TV, etc. In this article, we will see how to log in to GeForce Now on an Android or Google TV.

GeForce Now log in on Android and Google TV

This article will check the steps to Login to GeForce Now from Android TV or Google TV.

Step 1: Install and Open the GeForce App on your Google or Android TV.

Step 2: You will see a 6-digit code on the TV, which needs to be noted for activation.

Step 3: Goto the GeForce Device activation page geforcenow.com/login on the browser. You can use a laptop or desktop.

Step 4: Enter the 6-digit activation code and click on Submit button.

Step 5: Now, you will see the login page if you have not logged in already. You will see your name listed if you are logged in to the GeForce account. Click on the Continue option along with the name.

Step 6: Now, you will see a confirmation page. Click on the Continue Button.

Step 7: Finally, you will see the login successful page.

Now you can close the browser and see that the app on the TV got logged in successfully. Now you can play your favorite game on the Google TV or Android TV itself.
