In brief

Of late, it is very easy to make digital payments for a different variety of offline and online services without any hassle. HDFC PayZapp is a mobile wallet app that you can download on your smartphone for making easy and secure digital payments.

Of late, it is very easy to make digital payments for a different variety of offline and online services without any hassle. HDFC PayZapp is a mobile wallet app that you can download on your smartphone for making easy and secure digital payments. This payment app gives users a high level of safety to prevent unauthorized use. You do not have to worry about your sensitive information about your net banking or credit card anymore. Users can easily transfer their funds to their family members or make micropayments by using their HDFC PayZapp Wallet app easily without any problem. It will be much easier to gain better visibility and control of your all daily day to day expenses, conveniently and more easily.

By using PayZapp, you really do not have to worry about loading money in your wallet to make any transactions anymore. Just link your credit and debit cards allowing you to make payments through the linked card easily. It will surely give you a better transfer limit, as compared to other digital payments app.

Users will be able to carry out a variety of financial transactions - small and big:

- Book a cab
- Recharge your smartphone
- Buy tickets for movies
- Book your flight
- Manage and track your monthly and daily expenses
- Online shopping
- Pay all your several utility bills like gas, electricity, phone
- Send money to your family members and friends.
- Clear your all bills at restaurants and home delivery services
- Rewards and big discounts on every transaction you make

If you are looking for fast and secure banking on your phone, then you can install the HDFC Mobile app right now. You would get all the account updates relating to your main balance and various other banking details on this app. The process of money transfers or making payments is much easier and faster. Mobile recharge notification, Automatic bill payment notifications will save your time and help you pay easily.

Here are the features of using HDFC Mobile app for the users

- If you are not having any data plan running on your phone, then you can go for the SMS Banking. You can avail the benefits of mobile banking through SMS banking. You can check your account statement, account balance and mini-statement just by sending an SMS.

- Customers can dial the toll-free number from the mobile phone number registered with the bank for the purpose of SMS banking.

- mPassbook is the latest feature provided by the HDFC bank to its customers. With this great and helpful feature, you can update your passbook by using your mobile phone. There is no need to visit your bank home branch anymore. You will get the access on your phone for updating account details.

At last, you should download both HDFC PayZapp Wallet and Mobile app on your phone for the best banking experience. You can get these two banking apps by visiting the Google play store easily.
