Quick answer

If you are looking to block a number from any further calling, it is easy with TrueCaller. This article will show how to block a number using the TrueCaller app on Android and Android.

If you are looking to block a number from any further calling, it is easy with TrueCaller. This article will show how to block a number using the TrueCaller app on Android and Android. As you all know, TrueCaller is the most widely used caller id application worldwide. The app also offers additional features, including full-screen caller id, Video caller id, SMS management, etc. However, TrueCaller is always known for its best-in-class caller id feature.

How to Block A Number on TrueCaller

Blocking any number on the TrueCaller app is easy and can be done with a single click. However, due to the limitation of the iPhone, the setup is a bit complicated. On iPhone, TrueCaller is not available at its full capacity. But on the other hand, it is pretty straightforward on Android devices. So, we will look into both of them and, let's see, how to block a number using the TrueCaller app on iPhone and Android.

How to Block A Number On Android Using TrueCaller

To block a number on android using the TrueCaller app, follow the below steps.

Step 1: Open the TrueCaller app on your Android device.

Step 2: From the call list, tap on the number you wish to Block.

Step 3: On the next screen, you will see detailed reports regarding that phone number.

Step 4: Now click on the Block icon. A small popup will appear asking for your feedback.

Step 5: Now tap on the BLOCK button at the bottom.

Step 6: Done, now the number is blocked, and you will get a suggestion page where you can add your comment. This step is optional, and you can either skip or submit it.

Now the number is blocked, and you won't receive any further calls from the specified number. Therefore, you need to unblock the number from the TrueCaller block list to receive any further calls.

How to Block Number on iPhone using TrueCaller

As said before, blocking a number on the iPhone's TrueCaller app is not as simple as on Android. To block a number on iPhone, follow the below steps.

Step 1: Open the TrueCaller app on your iPhone

Step 2: Now, enter the number you wish to block in the search box. Once entered, the TrueCaller app will show the Contact name on the screen. Tap on that.

Step 3: On the next screen, you will see the details of the number. Now tap on the Block & Report button.

Step 4: A confirmation popup will appear at the bottom of the screen. Click on Block & Report.

Step 5: Done, the number is now blocked, and you will get an optional suggestion scene. You can cancel it or Save it.

Now the number is blocked, and you will not get any calls, SMS, or Facetime call from the blocked number on your iPhone.

Conclusion

Blocking a number on Truecaller is easy on both Android and iPhone. But on Android, it is pretty simple and can be done with a few clicks. But on iPhone, you won't get the call list within the Truecaller app due to the limitation and security issues. So it makes it a bit complicated to enter the number to get it blocked manually.
