Quick answer

Instagram is one of the most famous social networking sites like Twitter and Facebook. Many celebrities worldwide prefer using Instagram to upload their photos and keep updating their fans all around the world.

Instagram is one of the most famous social networking sites like Twitter and Facebook. Many celebrities worldwide prefer using Instagram to upload their photos and keep updating their fans all around the world. You would get a daily notification about what is happening with your friends or celebrities through their videos, images, and their profile posts. With the help of Instagram, you can even improve your business brand, get more traffic, build up relations with your customers, and generate more sales. Furthermore, you can watch different HD quality videos on Instagram as per your desires. Instagram is all about capturing the moment and sharing it with your family and friends. It is the new hub that is getting higher traffic from youth worldwide these days, and since it is quite an image and video-driven platform, you want to download the photos or videos easily on your device for sure. You should note that Instagram has provided an option to bookmark a video or any picture you would like. Still, the limitation here is that you would not access these trending videos or images if you do not have a strong internet connection.

Are you looking for a perfect way to download Instagram videos right now? If yes is your answer, then here you will learn about the steps to download Instagram videos easily without any hassle for sure.

Steps to Download Instagram Videos on your Android Device

- First, you need to download and install the Video Downloader for Instagram app from Google Play Store on your Android device. Just type Video Downloader for Instagram and you would get the app easily
- After installing it successfully on your mobile phone, you need to go to your Instagram app and search for a video that you want to download.
- Now, you should tap on three dots "..." on the video right side at the top
- Select "Copy Link" and go back to the Video Downloader for the Instagram app
- After opening the app, paste the copied link into the given blank space. The video is going to be downloaded on your smartphone
- If you want to repost the video, then you can select the "Repost" option and then selecting from "Feed" and "Stories" as per your desire.

If you are an iPhone user and looking for a way to download Instagram videos on your IOS device, then here are the important steps you need to follow for downloading videos from Instagram.

Steps to Download Instagram Videos on your IOS Device

- First, you need to download and install the "Regrammer" app from Apple Store on your IOS device. Just type Regrammer and you would get the app easily
- After installing it successfully on your mobile phone, you need to go to your Instagram app and search for a video that you want to download.

- Now, you should tap on three dots "..." on the video right side at the top
- Select "Copy Link" and go back to the Regrammer app, paste the link, and hit Preview.
- After hitting preview, it will download the video to your smartphone
- You can even repost the video on Instagram as a story or post as per your convenience by going to the "Repost" option given at the bottom.

At last, you need to understand that it is easy and simple to download Instagram videos on your phone, and you will not face any issues. As an Android user, you need an Instagram video downloader, and you can even copy tags from Instagram easily. Just one click from your side, Video Downloader for Instagram will help you repost or download your favorite pictures and videos on Instagram. It is entirely free to use, and you do not have to pay anything to use it. Millions of users worldwide prefer using this app due to its great benefits and important features. With the help of the "Video Downloader for Instagram" app, downloading or reposting videos is much easier. It is also easy to save pictures and videos from Instagram in your gallery. In addition, you would be able to copy tags from Instagram and share your favorite photos and videos with others. I have even personally tried using this app and was amazed by seeing its great features and benefits. The user interface of this app is simple and easy to understand for the users. Even if you are using it for the first time, you would love to use it. There is no need to be tech-savvy to use this app, as you would be able to download videos directly from your Instagram account. Due to its great and clean interface, everyone prefers downloading this app for their overall needs. It becomes challenging to choose a reliable and secure app to download Instagram videos with so many options available. The "Regrammer" and "Video Downloader for Instagram" both are the most famous and trustworthy apps you should consider without any second thought. By going through the positive reviews of these apps, it has been proved that users must go for these apps only. These apps are not paid for like most other downloading apps available in the market. You need to install it on your phone and start downloading videos by following all the mentioned above.

Download Instagram Video on Desktop

For downloading Instagram videos on a PC or Laptop, several third-party applications are available for free. Just visit one of the Instagram downloader websites and provide the Instagram post URL there. Any public Instagram photos or videos can be downloaded instantly without registration and login.
