Procedure to Download TikTok Videos without Watermark

To download a video from TikTok using SmallTik, you must first identify the video URL you want to download. There are various variations between getting the URL on a phone and a computer. The instructions for both methods are listed below:

1. Download Video on PC

Obtaining a URL on a PC allows you to download videos (for Windows, Mac OS). The site provides this option first because the video downloaded is the original high-definition video without a watermark, and it is also more convenient.

- Open TikTok and look for the video you'd like to save
- Watch the video
- On the right side of the video, copy the video URL
- You need to open the website of SmallTik and paste the link into the given toolbar
- To receive the video without the watermark, click download

It is further shown in the screenshot. So, you may also follow the first procedure with the help of the screenshot as given below: Then Open the SmallTik website, Paste the copied link, and click on the download. Later on, you will see the following interface, then click to download as video.

2. Download Video on Mobile Phones

On mobile phones, you can download videos by getting the URL. (To use this method, iPhone users must first download and install the Documents by Readdle software and keep it running in the background.)

- In your browser, go to TikTok.com and look for the video you wish to download.
- At the bottom right, click the share button.
- In the pop-up window, select 'copy the video URL.'
- Please copy the link to SmallTik's website and paste it into the toolbar.
- To save TikTok without the watermark, click the 'download' button.
