Quick answer

Logging out of an account is not a difficult task. We often log in to various websites from desktops or mobile phones, and we usually do not need to ask anyone how to log out.

Logging out of an account is not a difficult task. We often log in to various websites from desktops or mobile phones, and we usually do not need to ask anyone how to log out. The same applies to Amazon. If you log in to the Amazon website from a desktop, logging out is just as straightforward and can be done with a few clicks.

How to Log Out From Amazon App ?

If you're wondering how to log out of the Amazon app, this article is here to help. For the Amazon website, logging out is simple. Just click on the "Account & Lists" option in the top right corner. A list of options will appear, and you can find the "Sign Out" option at the bottom of the list. Logging out of the Amazon website is easy, but it's a bit different for the Amazon app. We'll guide you through the steps to sign out from the Amazon app on both Android and iOS devices.

How to Sign Out of Amazon App

Many users are asking how to sign out of the Amazon app online. Typically, users don't log out of mobile applications because they use personal accounts and don't need to log in and out frequently. However, there are occasions when you might need to log out, such as accessing another personal account or resolving an account-related issue.

The frequent updates to the Amazon app's user interface can sometimes make it more complicated than the familiar layout users are accustomed to. Recently, an update caused some confusion, making it difficult for users to find the logout option. If you're having trouble locating the logout option in the latest version of the Amazon app, we're here to guide you through the process.

Step 1: Open the Amazon app on your mobile.

Step 2: On the bottom, you will see the menu option (3 horizontal lines) on the right side. Click on that.

Step 3: Now, you will see the settings page with so many options. Scroll down to the very bottom.

Step 4: You will find an option called Settings. Click on that.

Step 5: Now, the settings option will expand, and you may see the Sign Out option at the end.

Step 6: Quickly click the Sign Out option to Sign Out from the Amazon Mobile App.

How to Log Out of Amazon App For iPhone?

The steps for logging out of the Amazon app are identical for both Android and iOS devices. You can follow the same instructions regardless of whether you have an iPhone or an Android smartphone.

Amazon App Log out Option Not available?

Some users report that the Amazon app logout option is not visible on their app and wonder if it is due to an older version. Regardless of the Amazon app version you use, the logout option is available. However, it may be challenging to find because you need to navigate through multiple menus to locate it.

How to Logout of the Amazon app If No Option Available?

If you cannot see the logout or sign-out option within the Amazon app, you may be using an outdated version. In this case, update the Amazon app on your Android or iOS device to the latest version. Once updated, you can find the sign-out option by following the steps mentioned earlier.

Can I Clear Amazon App Data to Log Out From Amazon?

If you are an Android user, you can clear the Amazon app data from your device to log out. Clearing the app data will remove all login details, and you will see the login screen when you open the Amazon app again. Unfortunately, this option is not available on iPhones. Instead, you must delete and reinstall the Amazon app on your iPhone or iPad to log out.

Sign Out of Amazon App By Resetting Password

If you have difficulty logging out of the Amazon app, you can reset your password. Open the Amazon app or visit amazon.com from any browser, then on the login page, click "Need Help?" and select "Forgot Password."

Provide the mobile number or email address associated with your Amazon account to reset your password. Once you complete the password reset, choose the option to log out automatically from all currently signed-in devices.

After resetting your password, your Amazon account will be logged out on all devices. You can then manually sign in to the Amazon app with the new password. If you still face issues, please comment below for further assistance.

Note: The latest version of the Amazon app offers the option to switch the country. If your Amazon account is registered in the United States, you can switch the store to the UK and vice versa. Before troubleshooting your Amazon account, ensure you have selected the correct country.

How to Log Out of Amazon App on iPad?

The Amazon app for iPad functions the same as the app for iPhone. The user interface and functionality are identical. Therefore, you can follow the same steps mentioned above for iPhones to log out of the Amazon app on your iPad.
