## Quick answer

How to set a JioTune using the JioSaavn app: choose your song, pick the tune type, and activate it on your number.

We all know that the popular music streaming service Saavn is now JioSaavn. The merging of Saavan with Jio has been completed past few months before only, and the application now rebranded as JioSaavn in the Google Play Store and App Store.

Since the music streaming service is being managed by Jio. All the Jio users can set their Jio Tunes completely free using JioSaavn application. This feature is an addition to the traditional SMS and Copy the song from another user method.

Unlike the common method that has been used by all other telecom providers, the Song selection and setting it as their Jio Tunes is so easy with the JioSaavn mobile application. Before going to the details, we need to clarify that the Jio Tunes is the same as the Caller Tunes or Hello Tunes that are used by other operators.

Each operator calls the feature with a different name such as Caller Tunes, Hello Tunes, Ring Back Tone, Jio Tunes etc. It is nothing other than, setting a personally selected song or music as the Ringing tone. Once a person calls on your number, he/she will hear a song or music other than the traditional ringing tone.

## Jio Tune Charge

Jio Tunes is completely free for all the Jio users, there is no charge for the song selection and no monthly charge to use. Jio user can set any of the available songs as their JioTune at any time and it is possible to change the song at any time. Everything is free and never get charged at this time.

If you need to cancel the service, also you can do it any time instantly. Unlike other providers, Jio Tunes will get deactivated automatically after 30 days. If you need the same song or a different song after that 30 days, you can activate it again.

## How to Set Jio Tune using JioSaavn Mobile App

This is the easiest way to set the song as your Jio Tunes. One thing to be noted here is that, while doing this, either you should be connected using Jio Data or using wifi with an active Jio SIM on your mobile. Otherwise, the option will not be visible on your application.

Simply open the JioSaavn application on your mobile and search for your favourite song as like normal song search. Once you get your selection, simply click on it to start playing.

Now, click on the song name to see the detailed play window. If the song you selected has the option to set it as Jio Tunes, then you can see a button saying 'Set JioTune' as like the screen below.

There are some cases in which the song cannot be set as Jio Tunes, then you can see the message saying 'JioTune Not Available' as like the screen below.

If the selected song has the option, simply click on the 'Set JioTune' button, you will be asked for the confirmation. Then click again on the 'Set JioTune' button. Done, the song has been successfully set as you tune and you will get an SMS regarding the confirmation of JioTune setup.

The SMS also contains the charge details saying that the charge will be Rs. 0.0 along with the direction to deactivate the service. As mentioned above, it will get deactivated after 30 days and if you wish to deactivate it before that date, you can do it by sending an SMS 'STOP' to 56789 or can be done by calling the number 155223.

You can do the same steps again anytime to change the song and it is all totally free.
