Bottom line

Are you planning to subscribe to the best video streaming services available right now? If you are confused regarding which streaming services you need to choose, then go through the deep comparison of the three famous OTT video streaming services (Netflix, Hotstar and Amazon Prime Video) in India.

Are you planning to subscribe to the best video streaming services available right now? If you are confused regarding which streaming services you need to choose, then go through the deep comparison of the three famous OTT video streaming services (Netflix, Hotstar and Amazon Prime Video) in India.

Netflix

Netflix is one of the most expensive and famous OTT video streaming services in India. It has recently launched the Rs 199 per month plan for the users. This plan will only work on tablets and smartphones. It supports downloads and has SD content only. There is another Rs 499 per month plan which allows the user to view HD videos on one screen. This plan will work on your television and also supports casting.

The most expensive plan of Netflix is at Rs 799 offers which allow the users to view 4k Ultra HD resolution. Your internet connection should be good for the streaming rate and also your device resolution on which you are streaming. You can easily access Netflix on your Windows Phone, Apple TV, PlayStation 4, Android, iOS, and Blue Ray players.

Hotstar

Hotstar is also one of the popular OTT video streaming services in India. Of late, Hotstar is getting some serious competition from several OTT platforms like Amazon Prime Video and Netflix. The users of Hotstar get mainly two types of subscription plans which include Hotstar Premium and Hotstar VIP. If you are going to use Hotstar premium, then you can have access to all of the OTT platforms content without any problem.

Hotstar premium will be cheaper than Netflix if you are ready to pay the one year fee. It has two plans includes Rs 299 monthly and Rs 999 yearly. It is very easy to access Hotstar on the Android, iOS, web, Apple TV and can also watch on Smart TV with the help of Google Chromecast.

Amazon Prime Video

Amazon Prime Video also offers users with high-quality HD video content like movies, TV series, latest shows and many more. The users get 4K Ultra HD content without paying anything extra. You can also download the video offline. There are mainly two plans: Rs 129 monthly plan and Rs 999 yearly plan. As a user, you will get many other benefits like faster delivery on Amazon your ordered products and free access to Amazon music service.

Also, popular mobile telecom service providers like Airtel and Vodafone have several plans where you can easily get one year of Amazon Prime for free. You can easily watch Amazon prime Video on Fire TV stick, Android, iOS, PlayStation 4, PlayStation 3 Xbox 360, Smart TVs and the web.

Finally, you are aware of the major differences between Netflix, Hotstar and Amazon Prime Video in terms of plan and pricing. Now, it is your choice to choose the best video streaming services by considering your overall requirement.
