In brief

If you are person who loves movies and series and using the streaming service such as Netflix, Amazon Prime Videos, Hotstar, Jio Cinema etc. Then you must install JustWatch app on your mobile.

If you are person who loves movies and series and using the streaming service such as Netflix, Amazon Prime Videos, Hotstar, Jio Cinema etc. Then you must install JustWatch app on your mobile.

Just Watch is a streaming search engine which will help you to find out the titles available in various streaming service such as Netflix, Prime Videos etc from a single place. We all know, streaming service is now more popular and even in India with the outcome of data war, the popularity has been gone high too.

Most of the streaming service including Netflix, Prime Videos, Jio Cinema, Hotstar, Tubi TV, Sony Liv etc regularly update their service by adding more and more movies and series each day. If someone using multiple services and thus it will be difficult to find out what are the latest added movies, series or episode etc.

Users needs to go to each app/service and needs to check separately. But, this can be done easily with JustWatch service. The service is available via desktop and mobile application. In Just Watch, you will be able to see the contents available in each region via different streaming services. Because the content available in India via Netflix will be different from that of the US version. So here you can see the contents in each regions.
