That means you get to have a plan that works the whole year for a little more than \$2 per month. We have yet to find a reliable plan that's as affordable as this one. However, one of the biggest issues is the lack of data support. Here are a few of the top features of the plan:

There is no doubt you often overpay for mobile services without realizing it. But with a few practical tips, you can reduce your monthly costs. Here are a few tips you can try now:

- If possible, switch from traditional phone calls and texts to free apps like WhatsApp, FaceTime, or Facebook Messenger.
- Avoid getting locked into expensive contracts for new phones unless necessary, and buy your device and shop for a SIM-only plan.
- Avoid thinking your current plan is the best, and compare offers from major carriers for better plans.
- Contact your current provider and ask if they can offer you a better deal. This works better if you are switching to a competitor.
